# GeoNorth Web Design & Development

Today, you can find just about anything you want on the Internet. But, you can't sell anything online that your company has to offer without some form of web presence. From tangible items (anything appealing to the 5 senses)... ..to the intangibles (such as insurance, for example). From your branding efforts... ..to company news and events. You need a website to fully optimize your marketing efforts.

Designing high quality, dynamic, elegant and appealing, and easy-to-use and maintain websites is one of GeoNorth's core strengths. Our highly skilled analysts and developers have proven experience developing websites and web-based applications using technologies such as:

- Drupal Content Management Systems
- ASP.NET (C# and Visual Basic)
- Ruby on Rails
- ColdFusion
- PHP
- HTML
- XHTML
- XML
- Java
- JSP
- Flash
- Flex
- Ajax
- and More

In addition, GeoNorth will help you establish a system allowing you to measure your online effectiveness. Google Analytics is a key element to your online marketing efforts. Google Analytics allows organizations to track their number of site visits, who's visiting, when, from where, and what they are buying. In addition, the GeoNorth value-added service of Search Engine Optimization (SEO) is designed to position your company, and your products and services, at the top of the search list *when those who don't know you are looking for someone like you.*
